HAINS IS GUILTY OF MURDER OF ANNIS

His Liberation May Mean That Capt. Hains Will Be Freed Without a Trial.

FLUSHING, N. Y., Jan. 16.—After reviewing the evidence for twenty-two hours and taking fifteen ballots before all were agreed, the jury in the trial of Thornton Jenkins Hains this afternoon found the prisoner not guilty as a principal with his brother, Capt. Peter C. Hains, Jr., in the killing of William E. Annis.

For the second time in his life Thornton Hains has been found not guilty of the charge of murder, as he was acquitted of murder in shooting a companion named Edward A. Hannigan in an open boat in Hampton Roads seventeen years ago.

Thornton Hains had an affecting greeting with Capt. Hains in the Long Island jail, whither he hurried in a motor car after the verdict to take his brother the news. Old Gen. Hains and his wife, who had been anxiously waiting to learn the verdict in the Hotel Astor, in Manhattan since the jury went out last night, heard the news from their son, Thornton, who telephoned his parents as soon as he left the court room. Mrs. Hains nearly fainted from joy.

Cheers Greet the Verdict.

After spending nearly an hour with Capt. Hains in the jail, Thornton Hains went to the Hotel Astor, where he remained through the evening and night with his father and mother.

The verdict came unexpectedly and at a time when Justice Crane, believing that a disagreement was likely, had sent for the jurors to learn what progress had been made toward a finding. The former defendant smiled, and tears filled his eyes, and, hurrying to the jury box after Justice Crane had discharged the jurors, he seized their hands and thanked them for their verdict.

Gainesville's Rapid Growth.

J. E. Dolan, representing the Babcock Printing Press Company, was among the arrivals in the city yesterday. This is his first visit to the city since the fire that destroyed The Sun building about nine years since, when he came for the purpose of selling us a new press. He was more than surprised at the growth and the phenomenal change in the city since his last visit and remarked that it seemed impossible that we should have grown so.

Subscribe for The Sun and help your lady friend win the fine piano.

Barely in any court of law has such a demonstration been witnessed as that which occurred when the jury made known its verdict. The packed court room of spectators rose as one man and cheered and applauded with such mighty vigor that the gavel falls of Justice Crane on his desk could not be heard.

Before proceeding further, Justice Crane ordered the trial chamber cleared and the spectators put out in the street.

After telephoning his mother and father, Thornton was escorted to a local hotel, while a throng of townspeople gave him a continuous greeting en route.

May Free Capt. Hains.

Jurors stated that the first ballot stood 8 to 4 for acquittal, and early this morning the ballot showed a gain of one for acquittal. Jurors Hecker, Johnson, Richmond and Boening voted for conviction of murder. Juror Boening held out until the final ballot was taken just after Justice Crane had sent for the jurors, and then changed his vote to acquittal, making the jury unanimous.

Officials of the district attorney's office in Queen county were quoted yesterday as saying that the verdict in the case probably means that Capt. Hains will never be brought to trial, and that he will be surrendered into the care of his family or the federal government.

"Under this verdict it is perfectly safe for any person who is ingenious enough to frame up a defense to go out and kill. Private vengeance seems to have taken precedence over the people's law," was the only comment that Prosecutor Darrin has to make on the jury's return.

Hertel as Manager.

W. H. Hertel has accepted a position with the White House and will act in the capacity as manager of this new and up-to-date place, assuming charge at once. Having formerly been engaged in this same line of work he has a large number of friends among the traveling public who will be delighted to again meet him in his old vocation.

How long ago was it that your store—or enterprise—was merely a plan? With aggressive advertising, how long before your plan of what it is yet to become is realized?

Sea Island Cotton Was Not So Active Past Week

SAVANNAH, Ga., Jan. 16.—The good demand noted for Sea Island cotton at the close of the previous week continued early in the present week, but as it became satisfied the market ruled progressively quieter, and closed quiet. In addition to the receipts a good deal of holding cotton came on the market, so that the offerings were more than enough to supply the demand. Quotations remain unchanged, but there was only a small enquiry for full choice Georgia and Florida, and extra choice Florida. Full choice was quoted at 36c.

The census report showed 86,016 bales ginned to Jan. 1, distributed by states, as follows:

South Carolina	12,181
The quality of the cotton now coming in is mostly poor and discolored.	
Sales for the week were 1,106 bales.	
The following prices are based on factors' quotations and are revised weekly on Fridays:

MISS DORIAN ELLIS RETAINS GOOD LEAD

CATHERINE HAILE RETAINS SECOND PLACE BY GOOD MARGIN.

Misses Dupree and Ellis Received Same Vote Saturday—How to Obtain 50,000 Extra Votes.

From Sunday's Daily Sun:

Every day that passes lends more interest to the piano contest. Last night over three hours was spent in counting the large vote that was cast yesterday.

Miss Ellis' principal vote has been secured through her efforts in obtaining new subscribers for The Sun and getting old subscribers to pay what they owe, and if some of the other candidates had been as energetic in this respect they would have a much larger vote today. Moral: "Get Busy."

The piano which is to be given away has been ordered and will be here in a short while, when it will be put on exhibition and the candidates will have the pleasure of seeing what a nice instrument they are working for.

To make the race more interesting we have just received information that we may be allowed to offer extra inducements for the candidates to work on subscriptions to The Sun.

We will give 50,000 votes extra to the contestant who secures the largest number of new subscribers to The Sun from now until the 1st of March, and 25,000 to the next largest. Not less than 20 subscribers to count in this offer.

Following is the standing of the candidates after yesterday's count:

Miss Dorian Ellis, city	235,035
Miss Catherine Haile, city	219,720
Miss Bessie Dupree, city	210,725
Miss M. Daughtrey, city	59,060
Miss Nannie Dickinson, city	49,985
Miss Mary McCormick, city	42,195
Miss Florrie Strickland, city	33,200

TOM BRISBAN GOES UP.

Justice Carlisle Sends Him Up for Four Months.

From Sunday's Daily Sun:

Charged with the larceny of money from his wife, the exact sum being \$3.45, Tom Brisbane was Saturday given four months by Justice Carlisle.

Brisban has figured in the courts a great deal for the past few weeks, and it seems that his last drunken spree will cost him four months of hard work, as he will be unable to find friends that will put up sufficient money to pay his fine.

Judge Carlisle only sentenced the prisoner to three months originally, but as he was leaving the room he turned to his wife and said: "You did me a dirty, mean trick." Whereupon the "Big Judge" said: "I will give you another month for that, making your sentence four months in default of \$100 fine."

THE IMPORTANT PART THAT TIMBER PLAYS

Importance of Preserving Same for Use in Mining Enterprises Not Generally Known.

WASHINGTON, D. C., Jan. 15.—

"Few persons not directly interested in mining realize the extent to which timber is used in this very important industry," said a Government expert in preservation of mine timber who had just returned to Washington from the West. "The average man has only a vague understanding of the importance of the part that timber plays in the mining industry, and seldom thinks of the enormous quantities required each year to prevent the caving of the over-hanging ground and to keep clear the main working passages of mines.

"There are two general classes of such timbers," he continued, "the first is used in bracing the 'stopes,' as they are called, where the ore is being taken out. As the ore is mined the surrounding rock is held in place by bracing it with heavy timbers, 'framed' into rectangular 'sets.' When ore directly above the first set is removed a second set is built in on top, and so on. The service of these timbers ends when the ore is exhausted and the active mining transferred to another vein or ore-body.

"After a time these timbers decay to a point where the pressure of the rock walls crushes them, and a 'cave-in' occurs. This causes no damage if, as I have said, the mining work has been finished; but it sometimes happens that decay has weakened the timbers to such an extent that the 'cave-in' occurs prematurely, and then lives are sacrificed. In such cases the remaining ore is also a loss, for when the ground has once commenced to move or 'work,' as the miners call it, it is almost impossible to clean it out and hold back the rock so that the remaining ore may be obtained.

"But of still greater importance is the second class of timbers used in the main working openings, tunnels, shafts, etc., which are to be maintained for as long a time as possible. Timbers for this service are chosen not only for their strength and firmness, but also for their ability to resist decay.

"In nine cases out of ten, when timbers are crushed, the indirect cause is decay, produced by low forms of plant life. The dwindling of our timber supply has driven consumers of wood all over the country to study decay and its prevention, and it is safe to say that in the very near future we shall see many more mines putting in small plants for the treatment of their timbers, after the pattern of the plants that have been designed and installed for this purpose by the United States Forest Service. By treating the permanent timbers with some one of the various preservatives they may be made to resist decay almost indefinitely. The additional cost is slight.

"Not only this, but since timber

when it is once treated retains its original strength, many of the so-called 'inferior timbers' which have hitherto been considered almost valueless because they decay rapidly, will find wide use in many localities. Such species are loblolly pine and, to a certain extent, shortleaf pine, Engelmann spruce, fire-killed lodgepole pine, white fir, and many other more local timbers.

"The first of the treating plants for mine timbers was put up by an Eastern coal company, after extensive experiments in co-operation with the Forest Service, which demonstrated the practical value of the treatments. Since then other plants have been installed in different parts of the country, two of the latest being in the Coeur d'Alene lead district of Northern Idaho, where, while there is an ample timber supply for some time to come, the treatment is warranted by the high labor cost of replacing timber sets. The added cost of treating timbers is from 10 to 25 per cent of the original cost.

"An interesting point in the problem of wood preservation is the spread of decay in old workings, caused by infection from nearby timbers. A fresh green post, placed between two sticks that are already 'sick,' will become infected and decay much more rapidly than if it were isolated. The contagion is similar to that of the ill that man is heir to, although it usually works more slowly. In one large mine a two-mile tunnel was completed eight years ago, and during the first four years the timber stood up in fine shape. Then signs of decay began to creep in here and there, and since then the disease has extended throughout the entire length of the tunnel, necessitating an annual expenditure of between four and five thousand dollars for replacing timbers rendered useless through decay. Less than one-fourth of this sum goes for timber, the remainder representing the cost of framing and installing. Unquestionably many of the cave-ins which crush the timber and block the mine tunnels, often causing many deaths, are due to nothing but wood decay.

"The work of treating mine timbers is considered of such importance that one group of men in the Forest Service gives its entire attention to this subject. Investigative work carried on by this branch of the service since it was organized has demonstrated that treating with an efficient preservative will prolong the life of timber indefinitely in places where before it was subject to a rapid decay, and the interest shown by the large consumers of timber and their eagerness to supply the information that has been obtained to their own particular problems, has been widespread and indicative of the benefits of wood preservation."

Cards of Thanks.

The ladies of the Cemetery Association desire to thank Mr. Theo. Hudgins for the caste associated with him for the handsome sum of \$47.25 derived by the association from the presentation of the talentedly presented and highly entertaining play "Charley's Aunt," at the opera house on Friday night. They also desire to thank Mr. Chris. Matheson for his valuable services in looking after the business end of the affair.

Editor Sun—I have used so much of your space and met with so much

hate to ask any more favors, but there are a few more thanks due. In the first place I am under many obligations to Mr. J. P. Smith, who so kindly gave us the use of his photograph gallery and furnished lights for the three nights we were unable to get the opera house; to Miller & Vidal for their kindness in handling the reserved seats; to the stage hands who volunteered their services; to Mr. Burkheim, for favors, and all others who in anyway aided us. My especial thanks to Mrs. F. T. McCormick and Mrs. Ernst Molnar, for their assistance in dressing "Charley's Aunt."

PAPER FACTORY SITE HAS BEEN SELECTED

LOCATED NORTH OF TOWN BETWEEN A. C. L. and T. & J. RYS.

Question of Water Will Be An Item, as Estimate Places It at Million and Half Gallons.

From Friday's Daily Sun.

The site for the proposed paper plant to be erected here by the C. W. Chase interests has been selected, and while nothing is being done in a rushing way they are gradually forging ahead and making all necessary arrangements to finally perfect the plant.

The site was located by two Boston engineering experts who have been here for this special business, and who have been all over the ground around here looking for the best location.

It is estimated that it will take a million and a half gallons of water daily to supply the plant alone, which will tax at the very least four wells.

There is no longer any question about the factory, for the matter has been quietly experimented with until it has been fully demonstrated just what can be produced, and the work along this line has even been so complete that they are enabled to tell just about what every grade of paper to be manufactured will cost from the time the tree is cut until the manufactured article of paper ready for shipment has been produced.

This undertaking has been no small matter, and already several thousand dollars have been spent in the experimenting stage. The next and most important move is to get the machinery, and it is expected that when the stock is finally offered outside help will be forthcoming at a rapid rate.

Not only will this factory prove an enormous enterprise for Gainesville, but it will be a tremendous big thing for the State. A large force of workmen will be engaged here by this enterprise.

The mere fact that the Chase interests are behind this gigantic manufacturing enterprise is proof positive that we will soon see the factory commenced.

The Meanest Man in Town

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable

Almost everybody who reads the newspaper is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, an eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE NEWS FROM WALDO.

(By Rev. D. L. Branning.)

WALDO, Jan. 15.—S. D. Bryant, an uncle of Prof. Bryant, principal of our public school, has arrived from Kentucky and rented of Paul Winter the farm recently purchased by him known as the Dorrance place. He expects his family soon and will go into a general farming business.

Jasper Donaldson is quite ill and Dr. Pierce has had Dr. DePass of Gainesville in consultation. The case is determined to be appendicitis and an operation will probably be necessary.

Rev. Pugh is out again after a serious illness, but is much reduced in strength.

Dr. J. M. Boring has gone to Atlanta to take a special course, which will necessitate his absence for some time. Dr. Pierce has his practice.

The infant child of Mr. and Mrs. Porter died and was interred in the city cemetery, Rev. D. L. Branning officiating. This was their first child and the loss was peculiarly affective.

Oranges raised in the vicinity are sold from wagons at a cent a piece, and grapefruit two for five cents.

Mr. Pierce and wife of Michigan are on a visit to Mrs. Pierce's relatives, Mr. and Mrs. E. Renault, and will have their residence property repaired and improved.

Charley Atwater is still confined to his bed from the gunshot wound received accidentally by his own hand some time ago.

Rev. T. L. Z. Barr filled his first appointment for the new year last Sunday, at the Methodist church. The congregations were the largest for a long time.

BIG CROWD GREETED "CHARLEY'S AUNT"

PRODUCTION WELL RECEIVED
BY APPRECIATIVE AUDIENCE.

Benefit Performance by Home Talent
Was All That Could Be Wished
for by the Public.

From Friday's Daily Sun.

One of the largest audiences of the season greeted our local players last evening at the New Baird Theatre.

"Charley's Aunt" is one of those standard comedies that grows better with age. The ludicrous situations are calculated to make a dyspeptic laugh himself well. From the rise of the curtain in the first act to the end of the play, the audience and players were in harmony.

It was but natural to suppose that under the painstaking direction of Mr. Hudgins the entire caste would acquit themselves creditably, but we did not expect to witness a performance, the equal, if not the superior of many of the traveling companies. When such plays and players can so easily be had at home, we need not want for good, wholesome amusement.

"Charley's Aunt" is a college play and deals with the pranks of their undergraduates of Oxford, one of whom disguises as a woman. To attempt to give all the praise deserved by the different members of the company would take too long. The bogus aunt, played by B. M. Tench, was all we could desire, his make-up, acting and costuming being perfect. We have seen him in many parts but think this the star part of his career. Fletcher Burnett and Addison Pound as his college chums were natural and easy, and worked and acted just as two young lovers would. Tom Stevens, as usual, was fine, as the father of Jack. He worked and played the part to the life.

Ernest Molnar made an excellent servant. His stern, deliberate manner would make the ordinary butler green with envy. Theo Hudgins, as Spetigue, aided the comedy by his work. Mrs. W. J. Denby, as Donna Lucia D'Alvadorez, was the ideal aunt. Mrs. J. W. McCollum and Miss Gertrude Wagner, as Kitty and Amy, were charming and seemed perfectly at home. They did much to enliven the different scenes in which they appeared. Miss Nina Cellon, as the orphan, Ella Delahay, was as sweet as could be wished. In fact, the entire caste deserve unstinted praise for their faithful work.

As Mr. Hudgins says, "It's not an easy matter to rehearse and put on a play like 'Charley's Aunt' in one week, even with professionals; what must it be to take amateurs and with only five full rehearsals succeed as we have. I have a right to feel proud, not of my efforts, but of the whole-hearted, cheerful work of the ladies and gentlemen who made this performance a grand success, and I thank them for their aid."

The music was furnished by the Gainesville Orchestra, and this new organization shows itself fast developing in a high-grade organization under their able leader, Prof. J. E. Woltz.

NEW S. A. L. DEPOT FOR PASSENGERS

WORK TO BE COMMENCED WITH-
IN NEXT TWO WEEKS.

Old Depot to Be Temporarily Repaired
to Accommodate Public Until
Completion of the New One.

From Friday's Daily Sun.
By the tearing away of the corner
of the old Seaboard depot on Wed-
nesday night the citizens of Gaines-
ville and the traveling public will
soon have a new modern waiting sta-
tion built in its stead.

Before the work of clearing up the
wreck had been fairly started Agent
Bullard was in receipt of the above
information, which will be pleasing
to the large number that travel over
this road.

While no specific time has been set
for the work to commence on the pro-
posed new building the agent said
that work would start within the
next two weeks, and the new build-
ing would prove a blessing to the travel-
ing people, as it would be complete
and modern in all its appointments.

Fortunately for both Clerks Hall
and Harvard, they had left the old
building just in time to escape death,
and were out of the offices when the
accident occurred.

They were not due to leave the
office until 6:30 p. m., but had left at
just 6:25, and escaped by only a few
minutes, being on the outside platform
when the car struck the building.

Engineer George was in charge of
the engine that did the demolishing
stunt, and it was a complete job so
far as the east end of the building
was concerned. He had a train of
twenty-five loaded cars and was
"shooting" them in on the siding to
return to Dayville for a lot of perish-
able vegetables and it was one of this
number, loaded with lumber, that
went through three rooms of the main
building, destroying the large block-
head that had been erected to stop
the cars before they reached the
depot.

The car demolished the stopping
block, tore away the east side plat-
form, and went through the white sit-
ting room, the file and stationery room,
and wound up within about two feet
of Agent Bullard's desk in the offices,
carrying the petition, flooring, brick
chimney and all to the fourth petition
before it was finally checked in its
progress. Had the accident happened
at a time when the offices were full
of employees all would have been kill-
ed or seriously injured.

The track upon which this car en-
tered had not been used for the past
six months or more, and it is a mys-
tery just how it was switched on, as
the engineer was of the impression
that he was on the north sidetrack
at the time of the occurrence and was
backing up at a rapid rate at the
time the single car went into this
track and did the damage.

Temporary repairs are now being
made at the building, which will be
used until the new station can be
built.

The Pure Food Law.

Secretary Wilson says: "One of
the objects of the law is to inform
the consumer of the presence of cer-
tain harmful drugs in medicines."
The law requires that the amount of
chloroform, opium, morphine, and
other habit-forming drugs be stated
on the label of each bottle. The man-
ufacturers of Chamberlain's Cough
Remedy have always claimed that their
remedy did not contain any of these
drugs, and the truth of this claim is
now fully proven, as no mention of
them is made on the label. This
remedy is not only one of the safest,
but one of the best in use for coughs
and colds. Its value has been proven
beyond question during the many
years it has been in general use. For
sale by all druggists.

Mrs. S. E. Pinkoson, living at 609
W. Liberty street, Gainesville, Fla.,
says: "My daughter had been in poor
health for some time, and I am sure
that it was all due to weakened kid-
neys. She was not strong, felt nerv-
ous and was subject to dull headaches.
These symptoms, together with others
that existed, induced me to procure a

PEARCE—BOWERS.

Prominent Young Gainesville People
Join Future Destinies.

From Friday's Daily Sun:
Dr. Harry L. Pearce and Miss Lyde
Bowers were happily married at the
home of the bride's parents, Mr. and
Mrs. G. M. D. Bowers, 407 East Lib-
erty street, Thursday evening at 7
o'clock, Dr. J. H. Parker performing
the ceremony.

The affair was a very quiet one and
only the immediate members of the
family of the contracting parties
were present, with the exception of
the young man's business partner, Dr.
J. H. Alderman.

Dr. Pearce is a prominent young
dentist of the city and was raised
here. He only a few years since gradu-
ated with honors and located here to
follow his chosen profession.

The bride has been a resident of
Gainesville for the past few years, re-
moving here with her family from
Bartow, and she has made many
friends during her residence in the
city.

Following the ceremony a dainty
and elegant dinner was served at the
home of Mr. and Mrs. B. R. Colson,
on East Alachua avenue.

The couple received many useful
and handsome presents, and The Sun
joins their host of friends in wishing
them a happy and pleasant wedded
life.

Don't Take the Risk.

When you have a bad cough or cold
do not let it drag along until it be-
comes chronic bronchitis, or develops
into an attack of pneumonia, but give
it the attention it deserves and get
rid of it. Take Chamberlain's Cough
Remedy and you are sure of prompt
relief. From a small beginning the
sale and use of this preparation has
extended to all parts of the United
States and to many foreign countries.
Its many remarkable cures of coughs
and colds have won for it this wide
reputation and extensive use. Sold
by all druggists.

Mr. Hudgins Grateful.

Editor Sun: I beg space in your
paper to express my feeling of grate-
tude to each member of the caste
who worked with me to make "Char-
ley's Aunt" a success. Their will-
ingness to attend rehearsals, and the
cheerful way they went over and
over again the different scenes made
my work a pleasure. With that spirit
shown success was sure. To the
members of the orchestra I return
heartfelt thanks, as they contributed
no small part towards the evening's
entertainment. With best wishes for
you all I sign myself, yours gratefully,

SWEARINGEN SIGNS LEASE FOR HIS ROAD

WILL HAVE LARGEST SAWMILL
IN THIS SECTION.

New Road He Will Build Will Give
Him Ample Facilities to Keep
Supplied With Logs.

From Friday's Daily Sun:

T. J. Swearingen, the sawmill man
of Kanapaha, has just signed up a
lease from the Seaboard giving him
sufficient rails to lay several miles
of track to haul logs to his large
milling plant at this place.

Owing to several delays the machin-
ery has not all been installed at his
new plant, and he was waiting until
he can secure the additional rails to
build a road and extend it into the
heart of his timber before ordering
the remainder of the machinery.

By securing this new rail he will
be enabled to keep his mill in opera-
tion to its full capacity. This is the
largest of any mill in this section.

He has recently purchased an en-
gine and will keep this running on the
new road he will build, which will
touch a section heavily timbered, and
may eventually be used for other
purposes in connection with the mill.

He expects to have the mill running
at its full capacity within the next
thirty days. Workmen are now plac-
ing the machinery as fast as it is re-
ceived and a force of hands will at
once be put to work on the roadway,
the grading having already been done
on some parts.

A Religious Author's Statement.

For several years I was afflicted
with kidney trouble and last winter
I was suddenly stricken with a severe
pain in my kidneys and was confined
to bed eight days unable to get up
without assistance. My urine con-
tained a thick white sediment and I
passed same frequently day and night.
I commenced taking Foley's Kidney
Remedy, and the pain gradually
abated and finally ceased and my
urine became normal. I cheerfully
recommend Foley's Kidney Remedy.

The Hartsfields Here.

B. D. Hartsfield and family have
arrived in the city from Moultrie, Ga.,
and will make this their future home.
They are pleasantly located at 106
South Arredondo street, in one of the
handsome new houses recently com-
pleted by J. D. Stringfellow.

Speaking of this estimable family,
The Moultrie Daily Observer of Janu-
ary 4 has the following to say:

"Mr. B. D. Hartsfield and family
will leave tonight for Gainesville, Fla.,
where they will make their future
home. Mr. Hartsfield, who recently
sold out his wholesale grocery inter-
ests here, is embarking in a similar
business there. The family has been
a valuable one to Moultrie and they
are released with serious regret.
They are commended to the good peo-
ple where they are going."

STATE CONVENTION ANTI-SALOON LEAGUE

WILL BE HELD AT JACKSONVILLE
FEBRUARY 9TH AND 10TH.

Hon. Seaborn Wright of Georgia and
Dr. Baker of Ohio Will Be
Among the Speakers.

JACKSONVILLE, FLA., Jan. 16.—The annual convention of the Florida Anti-Saloon League will be held at Jacksonville on Tuesday and Wednesday, February 9th and 10th. The first session will be held on Tuesday evening and there will be three sessions Wednesday.

Besides many State speakers special addresses will be given by Hon. Seaborn Wright of Georgia and Rev. Parley A. Baker, D. D., of Ohio, general superintendent of the Anti-Saloon League of America. These gentlemen are orators of the best type and the people of Florida are to be congratulated upon this opportunity of hearing them both together.

The public is most cordially invited to be present at the sessions of this convention. Its deliberations will be in the hands of delegates to be elected by the churches and allied organizations of the State. Each church, young people's society, Sunday school and each local temperance organization in the State is entitled to two delegates, and this notice is a formal request that such organizations at once elect delegates and furnish them with proper credentials. Let us make this convention a big success.

A feature of the meeting will be a full discussion of the best ways and means of promoting the present fight of the Anti-Saloon League for State prohibition. Coming as it does, just before the meeting of the Florida Legislature, friends of our cause can make this convention a means of large influence toward securing proper legislation. Plan now to attend.

SANITARIUM NOTES.

At a recent meeting of the stockholders of the Sanitarium Association the following officers were elected: President, J. B. Padgett; vice-president, T. W. Shands; secretary and treasurer, J. H. Hodges; directors, T. W. Shands, J. B. Padgett, J. H. Hodges, M. H. DePass, T. F. Thomas. Dr. J. H. Hodges was re-elected medical director.

The Sanitarium inaugurated a modern and thorough system of book-keeping the first of the year, and all records of the business affairs of the institution are kept with as much system as those of a bank.

Mrs. Susan Bradley, the efficient head nurse, made a flying business trip to Jacksonville Wednesday.

Dr. R. Y. H. Thomas of Jacksonville was a recent visitor at the Sanitarium.

Dr. and Mrs. McMillan of Morriston were visitors to the Sanitarium Friday. They brought with them Miss Inez Hunter of the same place, and left her at the Sanitarium for treatment. Miss Hunter was operated on on the following day by Dr. DePass and is now convalescent.

C. A. dePolx, a prominent naval architect of New York, arrived Saturday and will remain under treatment at the Sanitarium for several weeks.

Mrs. L. M. Simpson of South Weymouth, Mass., will arrive at the Sanitarium today and remain for some time, or until her health improves.

Will Drain Lands.

Surveyor J. W. Patton has just returned from Micanopy, where he has been engaged running off the large tract of land formerly owned by the Powell estate. The land has been purchased by G. H. Snyder & Co. of New York, and it is understood that they will drain one of the large lakes on the tract and use the place for a vegetable field. The tract comprises 1,400 acres and the lake they will drain is about a 50-acre one, which is said to be the finest muck land in the State.

Gone to Miami.

Chas. A. Faircloth, cashier of the Gainesville National Bank, left yesterday for Miami, where he goes to be present at a meeting of the directors of the bank of that place. He will be joined by President T. W. Shands, who is also a director of the bank.

Some Alcohol Questions

By order of H. W. LONG,
Brigadier General Commanding.

W. L. DITTO,
Adjutant-General and Chief of Staff.

GHASTLY SIGHTS IN THE HORROR MINE

Greet the Crews of Rescuers as They Work to
Recover the Dead Bodies.

BLUEFIELD, W. Va., Jan. 14.—A total of thirty-five bodies have been taken from the ill-fated mine at Lick Branch. Three rescue crews of forty men each, led by State Mine Inspectors Grady, Nicholson and Warner, are at work. The men in these crews report the most ghastly sights within the torn and fire-swept corridors and workings of the mine, where bodies are found mangled and mutilated beyond identification.

It is difficult, they declare, to distinguish between white and black because they are so frightfully burned. Some bodies taken from the mines resemble charred masses of flesh more than human beings. From some bodies legs are gone; from others the arms. One was headless.

The following is a list of the known dead:

White—Everett Phillips, George Peters, A. R. Miller, Joseph Jones, Charles Phillips, David Surratt, Riley Surratt, Ed Collins, James A. Tres, Robert Wythe, Daniel Arrington, Henry Bowles.

Colored—Luther Bouldin, John Hun-

ter, J. H. Cobbs, George Ensey, Frank Harston, Henry Lee, Anthony Johnson, Lemuel Dean and a man known as "Tattoo."

Nine unidentified bodies and two others have been brought out, but have not yet been placed in the morgue.

Experienced mine men are authority for the statement that this is the first case on record where two explosions occurred in the same mine in such a short space of time and are unable to explain its cause. Some of them point to the fact that the thermometer fell 19 degrees within several hours on the morning of the disaster, and hold that such rapid changes in the weather have considerable influence on the conditions that produce mine disasters.

ROANOKE, Va., Jan. 14.—The Norfolk and Western railroad expects to run a special train to convey dead bodies from Lick Branch to Roanoke. The remains of the mine victims will be forwarded from Roanoke to their proper destination.

BEN TILLMAN STARTS AN AMERICAN CLUB

Starts His Club in Opposition to Roosevelt's and
Begins With the Cabinet.

WASHINGTON, D. C., Jan. 15.—With the avowed intention of "placing both Attorney-General Bonaparte and Postmaster-General Meyer in the Ananias Club," Senator Tillman yesterday addressed the Senate. He alternated between acrid denunciation of these two members of the President's cabinet and ridicule which he hurled at them.

Mr. Tillman said it was not pleasant for him to intrude his personality upon the attention of the Senate.

"I have enough notoriety already," declared Mr. Tillman, "and I am not anxious to advertise myself, but the Senate knows the provocation I am under, and I trust will bear with me."

Speaking of the differences of recollections between himself and Attorney-General Bonaparte, he declared:

"I am ready to have my word put against his in any court in Christendom and to let my record in the past for truthfulness, honesty and integrity stand against his."

He asserted that he was not only dealing with President Roosevelt, "but with all the cabinet officers who are in league because, according to the newspapers they are discussing me at cabinet meetings and are determined to accomplish my ruin if possible."

"When I deal with as unscrupulous men as I do now, I am prepared for anything, even the assassin's knife. My mail is being held up. I am satisfied of that. I will not say my room has been broken into, because there are keys that can open everything in this capitol. They may not have stolen my papers, but they are gone."

Mr. Tillman then narrated a conversation he had over the telephone yesterday with Attorney-General Bonaparte in which he asked whether a suit had been brought against the Southern Oregon Company, the holder of the military road grant.

"He did not know," said Mr. Tillman.

"There had been some correspondence and a discussion back and forth as to the method that should be pursued by the special counsel," he said. "I pressed him for an immediate answer, yes or no. He said he would

make inquiry of the clerk charged with that business and let me know. In the course of a few minutes he returned to the 'phone and said he would write me a letter."

After having the letter of the Attorney-General read he declared that up to this time, and after nine months, nothing had been done in response to the order of Congress to bring suit.

Mr. Tillman referred to the motive of the Attorney-General. "We all know how slow the processes of the law are, especially against millionaires. We all know the process of being 'ready to do it,' of being 'anxious to do it.'"

He referred to Postmaster-General Meyer and his statement that the President had been in possession of the facts in this case only since December 18 and characterized that as "Falsehood No. 1."

Mr. Tillman announced that he had received a circular sent out by Dorr in which the following statement was made:

"Some day I shall have justice and reparation, and when that day comes, now not far distant, there will be a noise that will be heard around the world." That statement by Dorr, Mr. Tillman insisted, was conclusive proof that Dorr had received assurance from the President that he would "drag Tillman down as a liar and scoundrel."

He wanted to know what degree of falsehood was to be charged to the two cabinet officers "or head clerks or bootlicks or whatever the President has around him."

Mr. Tillman laid stress upon the fact that he had not attempted to obtain any Government land, but only to purchase land that had been given a corporation with the stipulation that that corporation should sell it to the public at \$2.50 per acre.

He insisted that he was entitled to a full investigation of these charges and to a report, as he did not wish to rest under the imputations that had been cast upon him. If no report should be made he said the impression would go abroad that the Senate had whitewashed him and that he was guilty of some wrongdoing which he did not wish to rest under.

CONFEDERATE BALL BY KIRBY SMITH

WILL OCCUR AT ELKS' HOME ON
TUESDAY EVENING.

Prices of Tickets Will be \$2, Which
Admits Couple With Dancing
Privileges—Onlookers 50c.

From Sunday's Daily Sun:

The Confederate Ball which is to be given under the auspices of the Kirby Smith Chapter at the Elks' Home on Tuesday evening promises to be the greatest society event of the season.

This event has been quietly gotten-up by the ladies of the chapter who have been giving entertainments for the past several years, and that they will make a success of the affair no one doubts in the least, for the ad-

vance sale of tickets has already proven satisfactory.

The price of tickets has been put at a nominal rate of \$2, which entitles one couple to admission with dancing privileges, and all visitors to the city will be admitted for the small sum of 50 cents per couple.

The event is given on the birthday of Gen. Robert E. Lee, and parties not already having tickets can secure them at the store of Miller & Vidal.

Music for this occasion will be furnished by the Gainesville orchestra, which is now among the best in the State.

Three Greeks were arrested in Pensacola last Sunday for shining shoes and are held under bond to appear before the criminal court next term. The arrests were made by the sheriff enforcing the Sunday blue laws in that city.

Tourists are now thronging the East Coast resorts in large numbers and the season promises to be the most successful in the history of that section.

When Gainesville's paper manufactory is in operation Florida newspapers will be mostly printed on paper bearing the "Made in Gainesville" trade mark.

The Californians are again irritating the Japanese, bills having been introduced in the State Legislature to prohibit aliens from holding land used for the separation of races in the schools.

The Jacksonville authorities are after the vagrants who infest that city. It would be a good idea for the Gainesville authorities to do a little work in this line, especially among the negroes who infest the neighborhood of the Seaboard depot.

Hillborough, Hernando, Osceola, Volusia and Pasco counties have made appropriations for the State Fair, through their boards of county commissioners. Other counties which will have exhibits, due to individual enterprise of leading citizens, include Duval, Manatee, DeSoto, Lee, Polk, Marion, Alachua, Columbia and St. Lucie.

Former Congressman Benjamin F. Harvey has been chosen by the Independent Democrats to succeed James A. Harrison in the United States Senate. Evidently the Hoosier Democrats considered that Hon. John W. Kern, who was also a candidate, had been sufficiently honored in being nominated as the running mate of Mr. Bryan.

And indeed it is to note the gradual passing to their reward of the pioneers of Gainesville. A few more years and not one of them who made this city their home in the fifties will be left to relate the trials and hardships of the first few years they spent here. No town was ever inhabited by a better class of earlier settlers than Gainesville, every one of whom loved the town and its people as their own.

The Tennessee Legislature has passed a law prohibiting the manufacture or sale of intoxicating liquors within four miles of a church or school house in that State. Now look out for some members of the Florida Legislature to introduce a similar bill at the session which convenes in April. Should such a measure pass both houses, however, Governor Gilchrist would veto it, and a two-thirds vote would be required to pass the law over his veto.

The annual statement of State Treasurer W. V. Knott, as of January 1, 1909, shows total receipts for the general revenue fund during 1908 of \$1,023,199.61, with disbursements of \$719,002.62, leaving a balance in the fund on January 1, 1909, of \$288,196.19. The report shows that the public debt consisted solely of refunding bonds amounting to \$601,567, bearing interest at the rate of three per cent per annum, all of which are held by the United States Treasury.

CURRENT COMMENT.

The Washington Post says: "Let a State of the South be treated precisely as a State of the North is treated by the administration—that is, consult the manhood and the intelligence of the South when it comes to selecting Federal officials down there, and impose on that people no public functionary odious in their sight. If that course be pursued—and it never has been pursued by any Republican President—there will be a beginning of a dissolution of the 'solid South,' and when the South does work a political revolution it will do it regardless of the solidarity of New England or the Middle West or the Far West. It is a poor compliment to New England to say it is solid because of the politics of the South. The beginning of the dissolution of the solid South will come when Ohio and South Carolina are given equal consideration in the councils, as to policies and patronage, of a Republican administration."

The Baltimore Sun (Dem.) says: "Discriminating Americans, familiar with the high standard of decorum and delicate sense of propriety which characterized Senators from South Carolina in other days, will probably not take as lenient a view of Senator Tillman's conduct in his transaction as the Senator himself and many of his friends do. Mr. Tillman has probably convinced those who know him best that he did not make a purposely misleading statement to the Senate; that in securing action by the Government in these land cases he has rendered a service to thousands of persons who desire to secure quarter sections in the tract of 2,000,000 acres in Oregon and Southern California now controlled, as Mr. Tillman alleges, by Mr. Roosevelt's 'best friend,' Mr. Harriman. But, however small the Senator's personal interest may have been in the success of the Government's suit, instituted on his initiative, it was still a commercial and practical interest. Persons with a highly developed sense of the proprieties will find it difficult to reconcile the Senator's promotion of his personal business, even though it be lawful to do this, with the high-minded, disinterested, public-spirited discharge of Senatorial responsibilities. It would be impossible to conceive of Calhoun promoting legislation of which he would be the beneficiary."

The Jacksonville Times-Union says: "Having insulted Congress in grossly vituperative language the President could have apologized or shown warrant for the charges. It is characteristic of him that he does neither—he attacks Tillman as the 'leader of the Democratic minority in the Senate.' Isn't this fine in a man who professes absolute tolerance and supports his position by misquotations of history?"

An organization of leading negroes of South Florida has been formed at Tampa for the purpose of preparing an exhibit of the products of the negro race for the State Fair, in response to an invitation from the fair management. Liberal space will be assigned for this exhibit, in order to encourage the colored people of Florida engaged in useful pursuits. The organization of negroes is making efforts to have Booker T. Washington deliver an address to them during the fair.

Sam E. Cobb, a brother of E. C. Cobb, has been elected secretary of the Railroad Commission. From what we know of Mr. Cobb a better selection could not have been made. He is a good clerical man and understands the clerical end of the railroad business, having been employed by different railroads for a number of years. He was also corporation clerk in the office of Secretary of State Crawford for a number of years.

The Assistant Attorney-General who proposes to fatigue the Standard Oil Co. by making the fine \$40,000,000 next time will put enough money into the treasury to pay the national debt if he can arrange for a sufficient number of reverses and cumulative fines.

The State of Minnesota, which has just passed the fifty-year milestone, has increased in population in round numbers from 150,000 to nearly 2,000,000, and in taxable wealth from \$20,000,000 to approximately \$1,000,000,000.

This country is not the only nation in the billion dollar class. The annual budget of Great Britain is rapidly approaching that figure. It costs money to cut a wide swath.

A GROWING INSTITUTION.

One of the cleverest and neatest bits of advertising ever sent out from Gainesville is the recent dainty brochure entitled "The Dutton Bank, Its Past and Future," just now being distributed by that progressive and rapidly growing institution. Together with valuable and interesting historical matter it contains photographs of the various departments of the bank, showing the new and up-to-date furnishings and equipments of the bank proper, the directors' room, vaults, etc., with two companion pictures showing the first humble home of the bank in 1871 by the side of its present elegant and commodious quarters.

Not the least interested page is that devoted to showing the present condition of the institution and its remarkable growth during the past year. It will be remembered that something over a year ago, when H. F. Dutton & Co. decided to discontinue this banking business, they sent out notices to all their depositors requesting them to withdraw their deposits. The request was promptly complied with, so that when the new bank opened—the organization of which was an afterthought—the entire amount of deposits at the close of the first day, including the capital stock, was only about \$190,000. The close of the year—and that a panic one—shows \$322,545.08 in deposits, beside the capital stock of \$75,000, and a surplus of individual profits amounting to \$17,591.74. This is certainly a gratifying showing, and an eloquent expression of the confidence of the people in the enterprising and pushing men behind this growing institution. It is understood that it is the policy of the directors, all of them men of means, to let the surplus accumulate until it equals the capital stock.

The printing and mechanical make-up of the booklet is a joy to the eye of a printer, and the whole thing reflects a great credit upon our town, and the bank, one of its most valued and solid institutions.

The national sanitarium of the Modern Woodmen of America, located on a 1,000-acre tract nine miles north of Colorado Springs, Colo., is, at last an accomplished fact. The first tent colony, with 60 patients, was opened last week. Other patients will be admitted as rapidly as accommodations are provided. If necessary, the sanitarium will ultimately have a capacity of 500 or more patients. Several of the local camps have adopted the plan of building and furnishing a tent cottage. The executive committee of the home has decided to conduct the sanitarium free to all members afflicted with tuberculosis, but will admit only those who are deemed curable or whose lives will thereby be prolonged for a considerable length of time. This decision is based on experience which teaches that the person coming to Colorado in the early stages of the disease has everything in his favor, while those who wait until the last stages before coming to the higher altitude and land of sunshine have the odds against them.

The Florida Review is the title of a new illustrated magazine published in Jacksonville, with C. E. Muriel as editor and James Douglass associate editor and publisher. The January number contains seventy-six pages and the subscription price is one dollar a year, or ten cents per copy. We welcome this valuable publication to our exchange list and trust it will receive the liberal patronage which the first copy indicates that it will continue to merit.

The Pensacola newspapers are exempt from the enforcement of the Sunday blue laws in the Deep Water City, the Legislature having wisely amended the law some years ago so as to exempt publishers of Sunday newspapers from its provisions. There is not near so much work on the Sabbath in publishing the Sunday issue of a paper as there is on the Monday paper.

It is more than probable that the merchants and Miners' Transportation Company of Baltimore will soon make Jacksonville a port of entry for its magnificent fleet of ships. The company has purchased valuable property on the river front.

The Congress discussion "what shall we do with ex-Presidents?" has turned on what can we do "to" our incumbent President?

Col. Barrett Missing From Interlachen Home

INTERLACHEN, Jan. 15.—This community was startled recently when, in the absence of his wife in Palatka, Col. Barrett, an old Mexican soldier, it is supposed, in a fit of mental aberration had left home, and up to the present time nothing has been heard from him. He took with him a trunk containing his clothing and personal effects including his gun, employing a man to take him to Edgar, some six miles distant, and leaving on the same train that conveyed his wife to Interlachen where she was surprised at not meeting him at the train as he had promised to do on her return when she left the day before for Palatka.

To give color to the belief of mental aberration, he left a note ad-

ressed to his wife that he had procured a situation as superintendent in the canal zone at good wages, acquiring only eight hours a day. The fact is further emphasized by some peculiarities somewhat strange which are recalled since his departure, and the additional fact that he was for several weeks in an asylum for the insane some years since after a serious accident.

Col. Barrett was also an officer in the Union army during the Civil War, a man of most genial temperament.

Much sympathy is felt for Mrs. Barrett in this affliction. Both she and her husband have been very highly esteemed in their very apparently happy life during their last three years sojourn in their home in this community.

New Messina May Rise In the Land of Flowers

PARIS, Jan. 15.—Duke Pompeo Litta of Lombardy called on the Italian ambassador, Signor Gallina, yesterday and offered to donate part of an extensive tract of land in Manatee county, Florida, owned by him for the purpose of colonizing 5,000 victims of the earthquake in Calabria and Sicily. The ambassador has communicated the duke's proposal to the Italian government.

Duke Pompeo Litta, who is a naturalized citizen of France, says that a

"Messina" may arise in a country which he describes as fertile and easy to exploit. The colonists could be employed in cutting forests, mining phosphates and raising cotton, fruits and vegetables. The Duke would allot to each family two farms, one free and one to be worked, for a small rental. He has already discussed the question of transportation with steamship companies, and he hopes that the American government would waive immigration restrictions. The tract in Florida is known locally as Myakka.

A TOURIST HOTEL FOR GAINESVILLE

W. R. THOMAS TO CONVERT THE
WHITE HOUSE INTO ONE.

Will Make It Second to No Hotel in
State, Which Will Only Be
Surpassed in Size.

Major W. R. Thomas will make of
the White House a tourist hotel.

While it has been his intention all
along to greatly increase the facili-
ties and eventually turn the building
into one big tourist hotel, it has only
been decided within the past few days
to start the plans at once.

He has recently purchased new
furniture, which will be placed in a
new parlor, and the whole front of
the building is to be remodelled on
the Colonial style, with handsome
plate glass doors.

Besides this improvement Major
Thomas has made arrangements to en-
large the dining room and kitchen,
and will build in addition a large
cold storage room. He says that he
will make the building throughout
the finest in the State, and it will only
be surpassed in the number that can
be accommodated.

In addition to the extra rooms al-
ready added he will have eight more
rooms added to the new extension
just placed to the building, which will
give ample accommodations for the
present, and if the increase continues
as at the present rate he will in-
crease the facilities accordingly.

He has always thought that Gaines-
ville was in need of such a hostelry,
but only in the past few weeks has he
taken interest in the matter.

Gainesville Furniture Co.
Gainesville, Florida

Important to Meat Raisers

We request every farmer in the
county who kills hogs to take their
meat to a good cold storage that you
know will cure your meat properly
for you.

Take your meat to Gainesville or
Alachua, where we have the best-
equipped cold storage rooms in the
country.

We have had eight years' expe-
rience in curing meats. Every year
we have given perfect satisfaction;
and we assure you we will give your
meat the very best care.

Our cold storage rooms are now
open at both our Gainesville and
Alachua factories.

We will haul the meat from the
depot free of charge—you prepay the
freight bill and mail us the bill-lading.
Mark the packages plain from you to
us so there will be no mistake. Let
your meat lay in salt over night be-
fore you take it or ship it to cold
storage.

Don't take any chances on local cold
storage rooms that use ice to keep
them cold, but send your meat to one
of our factories and get the best cold
brine circulation right from out ice
machine into the best cold storage
rooms in Florida.

WACAHOTA ITEMS.

(By Brown Eyes.)

WACAHOTA, Jan. 15.—Miss Nan-
nie Smith has returned home after a
few days' visit to friends in Gaines-
ville and Archer.

Misses Hassie and Rosalie Smith,
Theora Bodie, Irma Joyner and Janie
Smith and Mr. Philip Bradshaw
spent Sunday as the guests of Miss
Belle Chitty of Micanopy. They re-
port a lovely time and an excellent
dinner.

A much needed rain fell last Mon-
day night, and our farmers are busy
sowing oats.

Quite a large number from our burg
attended the oyster supper given by
the Woodmen of the World at Williston
on Thursday night. The oysters were
plentiful, also lots of other
good things, and all spent a pleasant
evening.

Miss Emma McClellan of Welborn
returned on the 6th and opened her
school at Central on the 7th.

Antone Brost, general manager of
the Central telephone office at Mica-
nopy, was out here last week tight-
ening up the wire and completing the
line in general. Mr. Brost is quite a
worthy young man and made many
friends during his short stay in our
midst.

Miss Irma Joyner, an accomplished
young lady of LaCrosse, has been the
guest of Miss Rosalie Smith for the
past week.

Misses Jaine, Wassie, Rosalie Smith,
Irma Joyner and Mr. Cedric Smith at-
tended a reception at the home of Mr.
and Mrs. B. F. Matthews at Tacoma
in honor of their daughter, Miss
Elizabeth's visiting guest, Miss Mary
Dinkins of Dothan, Ala. It was a
most enjoyable affair and quite a num-
ber of others would have attended
from here if the weather had been
good.

Misses Rosalie Smith and Irma
Joyner left Monday on a visit to New-
berry and Alachua.

Rev. J. W. Hilton of Hampton filed
his regular appointment here Sunday
and preached to an appreciative audi-
ence.

Miss Lucretia Sin Clare of Trenton
is back in our midst and has reopened
her school at Wacahoota.

Mrs. Jim Matthews and son, Neil
Matthews, and Miss Caroline Pas-
turs of Flemington, attended church
here Sunday.

Stomach Trouble Cured.

If you have any trouble with your

FOR RAISING CHECK ENGLISH WILL SERVE

CHECK WAS GIVEN BY S. J. SYKES
OF THIS CITY.

CHECK WAS GIVEN BY S. J. SYKES
on This Charge—Evidence is
Sufficient.

From Saturday's Daily Sun:

Johnson English, colored, was
brought to the city Friday from Brad-
ford county, where he had "jumped,"
after raising a small check on the
First National Bank of this city.

The negro had been employed by
S. J. Sykes to perform some work
and gave him a small check for the
amount due him on the First National
Bank of this city, which he raised be-
fore having the same cashed.

After securing the money on the
paper the negro left the county for
parts unknown, but he was appre-
hended at Starke and Sheriff Ramsey
went over to that place Friday after
the man. He will be given a prelimi-
nary hearing before Judge Mason to-
day.

Only a small amount of money was
secured by the negro in raising this
check, but it was the loss that the
bank was after as much as it was the
man. Good work was done on the
part of the officers in catching the
party so soon after the occurrence.

WILL ROCKEFELLER LIVE A 100 YEARS?

CLEVELAND, O., Jan. 15.—Dr. H.
Biggar, physician and close personal
friend of John D. Rockefeller, yester-
day denied the report that the oil
magnate was suffering from rheuma-
tism. He said Mr. Rockefeller was
enjoying perfect health.

"He will live to be 100 years old,"
said Dr. Biggar, "by these simple
rules: First, he avoids all worry;
second, he takes plenty of exercise in
the open air; third, he never over-
loads his stomach and always gets
up from the table a little hungry.
If men would follow Mr. Rockefeller's
physical methods we would all be
young at 70."

MORE NIGHT RIDERS CONFESS TO MURDER

UNION CITY, Tenn., Jan. 15.—The
prosecution in the night rider cases
secured further evidence yesterday,
when two of the men held in connec-
tion with the lynching of Capt. Quen-
tin Rankin made voluntary confes-
sions, telling of the part they had
in the affair and of others who they
asserted participated. The trials will
probably be resumed tomorrow.

The prosecuting attorneys, while
admitting that two of the prisoners
had confessed yesterday, would make
no statement.

Help in Case of Accidents.

Burns and Scalds—Cover with cook-
ing soda and lay wet cloth over it.
Whites of eggs and olive oil. Olive
oil or linseed oil, plain or mixed with
chalk or whiting. Sweet or olive oil
and lime water.

Lightning—Dash cold water over
the person struck. Lay patient in the
shade and apply ice-cold water to
head. Keep head in elevated position.

Mad-dog or Snake Bite—Tie cord
tight above wound. Suck the wound
and cauterize with caustic or white-
hot iron at once, or cut out adjoining
parts with a sharpe knife. Give stim-
ulants, as whiskey, brandy, etc.

Stings of Venomous Insects, Etc.—
Apply weak ammonia, oil, salt water
or iodine.

Fainting—Place flat on back; allow
fresh air and sprinkle with water.
Place head lower than rest of body.

Cinder in Eye—Roll soft paper up
like a lamp-lighter and wet the tip to
remove, or use a medicine dropper to
draw it out. Rub the other eye.

Fire in One's Clothing—Don't run—
especially not downstairs or out of
doors. Roll on carpet, or wrap in
woolen rug or blanket. Keep the head
down, so as not to inhale flame.

PRISONERS BURN WAY TO FREEDOM

THOMSON, Ga., Jan. 15.—By burn-
ing the heavy wooden door of the
county jail through to the sheetiron
covering on the outside, which was
then battered loose, nine prisoners,
three charged with murder and two
with arson, made their escape Wed-
nesday night.

One of the prisoners returned this
morning and surrendered to the
sheriff and two were captured this
afternoon at Appling.

Representatives. For almost five hours it was waged, the local option, or administration forces, contesting every inch of the ground. Amendment after amendment was presented and promptly voted down by about the same majority as that given the bill on final passage. A great outpour of oratory came from both sides.

Throughout the discussion the galleries were packed and several times the Speaker, at the request of local optionists, asked the sergeant-at-arms to exclude visitors from the floor of the House. When the final vote was announced the cheers from the galleries were deafening. The demonstration on the floor and in the galleries lasted several minutes. Last night the State-widers were jubilantly asserting that the bill will be passed over the Governor's veto by about the same vote originally received in each house.

A bill making "bucketshops" illegal was introduced by Mr. Carson.

by the petition as showing irregularities sixty-five are alleged to have made wrong returns by the alleged simple means of counting for Deneen votes which were cast for Stevenson. In twenty-eight others it is charged, in addition, either that persons, not naturalized or persons not residents of the county, or both, voted for Gov. Charles S. Deneen, and in each of the twenty-eight counties discounting of votes properly cast is also charged.

The county which appears on the petition to have countenanced the greatest amount of illegality of all sorts is Cook, (Chicago), although extensive frauds also are charged in other counties.
